

Smart & Simple

Cost-effective and user-friendly tools for production of educational videos.

A smartphone and a laptop with a decent video editing app is more or less all you need to produce educational videos of high quality.

1. Smartphone

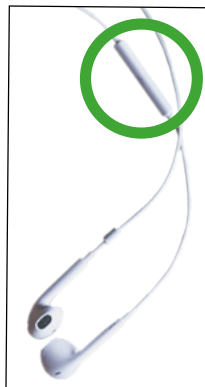

2. Video recording apps:

- MoviePro, for IOS: <https://itunes.apple.com/us/app/moviepro-video-recorder/id547101144?mt=8>

- Cinema FV-5, for Android
<http://www.cinematv5.com/>

3. Tripod for smartphones:
<https://www.scandinavianphoto.se/joby/bordsstativ-grip-tight-gorillapod-pro-1027613>

4. Use your ordinary smartphone-handsfree as an external microphone, or get a professional mic for smartphones: <https://www.scandinavianphoto.se/rode/mygga-smartlav-1013827>

6. Length cord for handsfree/mic, to be able to move more freely while presenting: <https://www.scandinavianphoto.se/rode/sc1-kabel-35mm-trrs-hane-till-trrs-35mm-hona-1017823>

Attn!
You will need a 4-pol, 3,5 mm, tele

7. Laptop, Mac/PC

8. Camtasia, screen recording and video editing app:
<https://www.techsmith.com/video-editor.html>

9. Laptop stand
<https://www.gear4music.se/en/PA-DJ-and-Lighting/Adjustable-Laptop-Stand-by-Gear4music/WJS>

10. Lights
Look for one or two desk lamps and place them in front and a side of you, or get a professional video lamp: <https://www.scandinavianphoto.se/produkt/1021708570/aputure/led-belysning-amaran-al-f7>

11. Background
Use a cloth, or similar, and attach it to a wall, or use a professional alternative like this: <https://www.scandinavianphoto.se/produkt/1003790335/lastolite/panorama-bakgrund-4m-svart>
